

Round table: The teaching of logic in High School

In celebration of the World Logic Day in 2024, the Brazilian Logic Society (SBL) invited teachers from several Federal Institutes from Brazil (which offer high school, technical and higher education) to discuss the teaching of logic in philosophy, mathematics and computer science. The aim of this round table is to discuss logic within the curricula at each institution, their experience teaching logic, their success and failures, in order to talk to the SBL how we can contribute to make the teaching of logic easier and promote logic within high schools.

Chair: [Prof. Elaine Pimentel](#)

Speakers:

[Ednilson Gomes Matias](#) (IFAL, campus Maceió)

[Alexandrina Paiva da Rocha](#) (IFPI, campus Cocal)

[Eneas Mendes de Jesus](#) (IFES, campus Piúma)

[Lucas de Oliveira](#) (IFC, campus Videira)

[Verlaynne Rocha Araujo](#) (IFPE, campus Palmares)

[Sionise Rocha Gomes](#) (IFAM, campus Presidente Figueiredo)

Date: January 15th, 15:00 GMT -3

Organization: [Brazilian Logic Society](#) (contato@sbl.org.br)
