

[2025 World Logic Day](#)

Title Round table on extension projects

With the goal of taking Logic beyond a formal discipline, this roundtable gathers participants involved in extension projects focused on Logic to inspire others. We'll discuss practical aspects such as developing materials, group dynamics and activities with students. Sharing successes and setbacks, we'll learn from those who've already bridged the gap between academia and the broader community.

Speakers

[Profa. Cléssia Nunes](#), about "[Potimáticas: Meninas Potiguares na Matemática](#)"
